Really Cool LP

Medical keyboard

The hygienic white Really Cool Low Profile keyboard is our most innovative solution for uncompromising customers in hospital, clinical and dental environments—wherever infection control is imperative.

It sets itself apart by its key height optimized for easy-wipe cleaning combined with the modern typing feeling of a laptop. In addition, it is fully sealed, seamless and long term resistant to cleaning with surface disinfectants, such as alcohol.

During the process, you can lock the keyboard with its Tru Lock locking facility and keep the USB plug connected. If you need more than a quick wipe, safely submerge for a more thorough disinfection.

7 Requirements for a Medical Grade Keyboard

- Fully sealed
- Disinfectable
- Hygienic white
- Lockable
- Easy to use
- Electrically safe
- No drop hazard

Drop safe and EN60601 certified, this compact keyboard is fit for purpose!
